

Access Card: ProxCARD® II

125MHz Proximity Card

The RF-programmable ProxCARD® II proximity access card is the industry choice for a cost-effective solution to proximity access control.

Offers extremely consistent read range. Unaffected by body shielding or variable environmental conditions, even when close to keys and coins.

Can fit into a wallet or purse. Use with a strap and clip as a photo ID badge.

A cross-reference list correlating the external card number and the programmed ID number is provided for easy system administration.

Offers over 137 billion unique codes.

Passive, no-battery design allows for an infinite number of reads.

Strong, flexible and resistant to cracking and breaking.

Features

- Universal compatibility with all HID proximity readers.
- Provides durable packaging and consistent read range.
- Provides an external number for easy identification and control.
- Custom pre-printed artwork available.
- Supports formats up to 85 bits, with over 137 billion unique codes.
- A PVC overlay allows for on-site photo ID using most direct image printers.
